

Current
Information about the Condition
in the Dual System Market - 8.10.2015
**Release of Q4 quantity report:
Number of licenses increased
significantly again**

The number of licenses in the dual systems increased again in the 4th quarter of 2015. Almost 415,000 tonnes of lightweight packaging (LWP) were recorded at the clearing centre in Q4. For the first four quarters of 2015, a total of about 1.52 million tonnes of LWP was recorded by the system.

Compared to the Q3 announcement, the quantities in all three fractions, LWP, paper and board packaging (PBP) and glass, increased significantly again.

The quantity of LWP increased by another 20,000 tonnes, the quantity of paper and board packaging (PBP) increased by more than 34,000 tonnes and the quantity of glass by almost 35,000 tonnes.
